WELCOME TO THE PIPELINE INDUSTRY’S PREMIER EVENT

Together with the International Pipeline Conference, the International Pipeline Exposition (IPE) has become one of the most important events for the global pipeline industry. With more than 50 countries participating, this year’s conference and exhibition enables the industry to gather and share insights, challenges and source solutions to the unique challenges facing the pipeline sector.

The topic of pipelines continues to be a major focus of the media, government and in our communities. Challenges surrounding pipeline integrity, security, maintenance detection, inspection and corrosion are just a few of the issues surrounding the industry that require immediate attention. There is no better place to engage the industry as a whole than the International Pipeline Conference and IPE in 2018 and find real solutions, the latest technology and key developments on the horizon for the pipeline sector.

On behalf of the entire IPE events team, we hope you will make the most of your time during this week in Calgary and trust you will find the networking, educational opportunities and discussions helpful. We invite you to take part in our Industry Networking Receptions on Tuesday, September 25th from 4:00 to 6:00 pm and on Wednesday, September 26th from 4:00 to 6:00 pm, which will connect you with the companies and people on the forefront of innovation in the industry.

We are delighted to have incredible partners who put so much time into developing the world-class International Pipeline Conference. A very special thanks to the many volunteers and staff who came together from the Canadian Energy Pipeline Association and the American Society of Mechanical Engineers.

Thank you also to IPE’s dedicated sponsors, exhibitors and attendees from around the world – we hope you will source new opportunities, discover new connections and create lasting business relationships.

Thank you,

Nick Samain
Vice President
Dmg events, Canada

NEW PRODUCT PROGRAM

Discover new pipeline products and technologies from these companies featured in our New Product Program.

**Industrial Degauss | Booth 1309**
New Product: Pipeline Demagnetizer IDMAG System

The IDMAG Pipeline Demagnetizer is a portable, powerful and durable unit designed to be deployed quickly and easily operated to remove pipeline magnetism and allow welding to proceed without delays.

**Ingu Solutions | Booth 121**
New Product: Ingu Solutions Pipers™

Almost 40 per cent of the world’s oil and gas pipelines are unreachable using current inspection technologies. Advanced microelectronics and machine learning have enabled the development of free-floating smart sensors called Pipers™ – detecting leaks, magnetic features, geometric defects and deposits in lines as small as 2 inches – with zero downtime.

**Pipetech Corporation Ltd. | Booth 602**
New Product: Evolution® Isolation Gasket

The future of Flange Isolation. This innovative gasket features easier installation, the highest pressure rating of any isolating gasket available, tight sealing, high temperature operation, does not have permeation issues, can be hydro-tested with virtually no loss of isolation properties, is fire-safe and chemical resistant.

**Global Information Systems | Booth 1315**
New Product: Project Pulse

Project Pulse is a real-time construction project management and performance solution. Built to unify people, processes, and technology, Project Pulse brings the actual project progress and status from the field to project management and executive offices. Project Pulse provides users unprecedented ability to monitor and control their construction projects.

**Clock Spring | Booth 916**
New Product: Clock Spring Leak Stopper

With a clamping strength of 5,929 lbf, Clock Spring Leak Stopper delivers fast, safe temporary containment for onshore oil and gas pipelines, refineries, petrochemical plants, and municipal water/gas distribution lines. A unique strapping method achieves secure composite placement using teeth that are part of the strap, delivering a low-profile repair.

**VantEdge O&G Inc | Booth 2104**
New Product: CompliShield

CompliShield is an innovative software solution that enhances operational excellence in the oil and gas industry by assisting companies with the safe operation of their assets. Through concordance with operations and risk assurance of legislative requirements, CompliShield aims at comprehensive regulatory compliance within organizational management systems.

**JDR Enterprises Inc | Booth 3011**
New Product: Grid-GuardHD+

Rock shields cover thousands of our underground pipelines. Grid-GuardHD+ was designed to meet the industry standard for rock shields (11mm Heavy Duty), but also to go one step further. HD+ is backed with a geotextile fabric. This fabric allows even great protection from potential abrasions on the coating. The fabric is lightweight, permeable, and does not inhibit cathodic protection. We’re excited to introduce Grid-GuardHD+ to our midstream customers.

**Pivvot | Booth 3001**
New Product: Integra Link

Integra Link is a cloud-based collaboration platform that connects stakeholders across a project team to real-time operational information and documentation. It provides the insight you need to develop, operate, and maintain critical infrastructure assets accurately and efficiently.
Visit the interactive Enduro booth #502 while you're visiting IPE 2018, September 25 - 27 in Calgary, Canada. Our trained specialists will update you on Enduro's newest pigging products, multiple technology tools, PigProg II Presenter analysis software, and pipeline integrity services.
NDT Global

Atlas ultrasonic geometry (UG) is a combined geometry inspection service which allows for the completion of a comprehensive inspection in a single run. The Atlas UG robot delivers direct ultrasonic measurements of dents with a resolution down to 0.1 mm and can help significantly reduce the number of unnecessary digs.

Vanmok LD™:ColumnFinder™
A Pipeline Column Separation Detection Software

ColumnFinder™ predicts the slack line or column separation in a pipeline as well as the inception and evolution of column separation with time. Vanmok LD Studio distinguishes between column separation and leak.

PIGGING & SEALING SOLUTIONS
That Protect the Integrity of Your Pipeline

Pipetech Corporation designs and delivers products that mitigate corrosion and ensure the integrity and efficiency of pipelines around the world. Our industry-leading pigging products demonstrate optimum performance in applications ranging from routine maintenance & heavy solids removal to preparation & implementation of corrosion inhibitor chemical, even in the most challenging environments.

Our sealing solutions protect pipelines from dangerous leaks and spills and ensure the safe flow of fluids in pipeline transmissions, distribution and process piping systems under the most rigorous sealing requirements.

Pigging Products . Flange Isolation & Sealing . Pig Detection & Tracking

Keeping Pipelines & Communities Safe Since 1987
IPC Registration Information

Full Conference Registration Fee includes (from $1100 to $1350)

Four days of technical tracks, three days admission to the Exposition and one ticket to each of the Conference social events and copy of Conference Papers.

Please note that tutorials are not included and must be paid for separately.

One day Conference Registration Fee includes (from $475 - $625)

The technical tracks for a specified day only; ticketed events for the specified day; admission to all three days of the Exposition.

Other event tickets, copy of the Conference Papers, tutorials may be purchased separately.

Student Registration Fee includes (from $00 - $25)

Four days of technical tracks; admission to the Exposition; Distinguished Lecture Series; Executive Leadership Panel and one copy of the Conference Papers.

Event tickets and tutorials may be purchased separately.

IPC 2018 Schedule of Events

Keynote Speakers

Patrick Smyth
Chair, IPC 2018
VP Performance, CEPA

W.R. (Bill) Byrd
Vice-Chair, IPC 2018
President, RCP Inc.

Cynthia Hansen, Enbridge
Executive Vice President,
Utilities and Power Operations

Calvin Helin, Eagle Spirit Energy Holdings, Ltd.
Chairman and President

Alan Murray, Retired, Chief Engineer and Chief Safety Officer
National Energy Board

Peter Tertzakian, ARC Energy
Research Institute Executive Director

The International Pipeline Conference 2018 Sincerely Thanks our Industry Sponsors
**IPC 2018 Schedule of Events**

* timing, events, and locations are subject to change until announced as final

All the following events and activities will be held at either The Hyatt Regency Hotel or the TELUS Convention Centre unless otherwise noted.

**Monday, September 24**
- **07:00 - 13:30** Tutorial Pre-Registration Pickup
  (located on the 3rd floor of Hyatt building)
- **09:00 - 18:00** Tutorial On-Site Registration
  (located on the 1st floor of TELUS Convention Centre South Building)
- **08:00 - 17:00** Tutorials
- **09:00 - 18:00** Conference Pre-Registration & On-Site Registration
  (located on the 1st floor of TELUS Convention Centre South Building)
- **12:00 - 13:00** Luncheon for Tutorial Participants
  Sponsored by: EXP Energy Services, Inc.
- **17:00 - 19:00** Young Pipeliners Panel
  “Help Me, Help You”
- **18:00 - 20:00** Conference Ice Breaker Reception
  Sponsord by: ASME Pipeline Systems Division & CEPA (Canadian Energy Pipeline Association)

**Tuesday, September 25**
- **07:00 - 18:00** Conference Pre-Registration & On-Site Registration
  (located on the 1st floor of TELUS Convention Centre South Building)
- **08:30 - 10:00** Conference Opening Plenary Session
  Keynote Speaker: Cynthia Hansen,
  Executive Vice President, Enbridge
  Sponsored by: CNRL
- **10:30 - 12:00** Conference Technical Sessions
- **12:00 - 13:30** IPC Delegate Networking Luncheon
  Sponsored by: TransCanada
- **13:30 - 16:30** Tutorials
- **13:45 – 15:45** Executive Leadership Panel
  Sponsored by: ERM
- **16:15 – 17:30** Distinguished Lecture Series
  Presented by the ASME Pipeline Systems Division
  Sponsored by: Plains Midstream

**Wednesday, September 26**
- **07:30 - 15:30** Conference Pre-Registration & On-Site Registration
  (located on the 1st floor of TELUS Convention Centre South Building)
- **08:00 – 11:45** Public Engagement and Acceptance Session
  Three sessions focused for both technical and non-technical IPC attendees. The topics include:
  Pipelines exposed — how industry shapes its story online, engaging with real people
  Maintaining Public Confidence When Incidents Occur
  What does meaningful communication mean to me? A look into unique communities.

See website for details on topics, speakers and moderators.

**Thursday, September 27**
- **07:00 - 18:00** Conference Pre-Registration & On-Site Registration
  (located on the 1st floor of TELUS Convention Centre South Building)
- **08:30 - 12:00** Conference Technical Sessions
- **10:00 - 18:00** Exposition Open
  (located on the main floor & upper level)
- **12:00 - 13:30** IPC Delegate Networking Luncheon
  Sponsored by: TransCanada
- **13:30 - 16:30** Tutorials
- **13:45 – 15:45** Executive Leadership Panel
  Sponsored by: ERM
- **16:15 – 17:30** Distinguished Lecture Series
  Presented by the ASME Pipeline Systems Division
  Sponsored by: Plains Midstream

**Friday, September 28**
- **07:00 - 18:00** Conference Pre-Registration & On-Site Registration
  (located on the 1st floor of TELUS Convention Centre South Building)
- **08:30 - 12:00** Conference Technical Sessions
- **10:00 - 18:00** Exposition Open
  (located on the main floor & upper level)
- **12:00 - 13:30** IPC Delegate Networking Luncheon
  Sponsored by: TransCanada
- **13:30 - 16:30** Tutorials
- **13:45 – 15:45** Executive Leadership Panel
  Sponsored by: ERM
- **16:15 – 17:30** Distinguished Lecture Series
  Presented by the ASME Pipeline Systems Division
  Sponsored by: Plains Midstream

**Saturday, September 29**
- **07:00 - 18:00** Conference Pre-Registration & On-Site Registration
  (located on the 1st floor of TELUS Convention Centre South Building)
- **08:30 - 12:00** Conference Technical Sessions
- **12:00 - 13:30** IPC Delegate Networking Luncheon
  Sponsored by: TransCanada
- **13:30 - 16:30** Tutorials
- **13:45 – 15:45** Executive Leadership Panel
  Sponsored by: ERM
- **16:15 – 17:30** Distinguished Lecture Series
  Presented by the ASME Pipeline Systems Division
  Sponsored by: Plains Midstream

**Sunday, September 30**
- **07:00 - 18:00** Conference Pre-Registration & On-Site Registration
  (located on the 1st floor of TELUS Convention Centre South Building)
- **08:30 - 12:00** Conference Technical Sessions
- **12:00 - 13:30** IPC Awards Luncheon
  Sponsored by: API
  Speaker: Mr. Alan Murray

Infrastructure Mapping and Autonomy

IMA leverages advanced processing technologies to rapidly turn LiDAR data into 3D HD maps for capital projects and operations programs.

A new era for infrastructure mapping

Visit us at booth 426 at the IPE
3-D Line Locating Ltd.
Booth: .............................................. 2114
www.3-dlinelocating.com
Nisku, Alberta, Canada
T: (780) 514-4607
3-D is a fully integrated Damage Prevention Services Company that offers a suite of products and services to the Oil, Gas, and Energy Industries in Western Canada. For 25 years our mission has been to mitigate risk and prevent damages to vital underground infrastructure. When it comes to protecting your critical infrastructure 3-D is your partner of choice for your project.

3vGeomatics
Booth: .............................................. 1106
www.3vgeomatics.com
Vancouver, British Columbia, Canada
T: (403) 829-3345
3vGeomatics is one of the leading InSAR providers. Our monitoring programs combine the most advanced processing technology together with high resolution, wide area radar satellite images that remotely identify and monitor displacement over very large areas and across varied topography. We serve a multitude of clients globally across different sectors.

Abley Canada Inc.
Booth: ............................................... 2015
www.abley.ca
Montreal, Quebec, Canada
T: (780) 405-1525
Abley is known as the world’s leading manufacturer of high security locks and developer of rotating disc technology cylinders. Abloy® Protec2, Abloy® Protec2 CLIQ the ultimate locking solution offers highest security for professional end users. The mechanical features can be further enhanced by integration of the Access Control, CLIQ technology. Patented until 2031.

Acre Prime Inc.
Booth: ............................................... 626
www.acreprime.ca
Rocky View County, Alberta, Canada
T: (403) 235-2222
Acre Prime Inc. is based in Calgary, Alberta but provides services throughout Western Canada. Specializing in earthworks, land reclamation, erosion & sediment control and landscape construction. Acre Prime Inc has operated as a family owned business since the 1960’s. For 3 generations Acre Prime has developed and maintained long lasting relationships with clients.

Advanced Bending Technologies Inc.
Booth: ............................................... 1212
www.bending.net
Calgary, Alberta, Canada
T: (403) 720-8242
Advanced Bending Technologies specializes in induction bending (up to 48” dia), cold bending and end finishing. We offer additional services including blasting, coating and lining. Advanced Bending Technologies is a key member of the AdvanTec Industrial group of companies. We aim to be “Your Single Source Integrated Solutions Provider”.

Advanced Flow Systems Inc.
Booth: ............................................... 1212
www.advancedflowsystems.com
Calgary, Alberta, Canada
T: (406) 462-2057
Advanced Flow Systems specializes in design and fabrication of ASME pressure pipe systems, vessels and mechanical packages. We offer additional services including hydro-testing, blasting, plus coating and lining. Advanced Flow Systems is a key member of the AdvanTec Industrial group of companies. We aim to be “Your Single Source Integrated Solutions Provider”.

Aegion Coating Services, LLC
Booth: ............................................... 808
www.aegioncoatingservices.com
Conroe, Texas, United States
T: (936) 530-8000
Aegion Coating Services combines a variety of pipeline coating and rehab technologies for both onshore and offshore installations, including robotic field joint OD and ID coating, custom FBE coating solutions and specialized equipment.

Aegion Corporation
Booth: ............................................... 808
www.aegion.ca
St. Louis, Missouri, United States
T: (314) 530-8000
Aegion is a multinational company providing pipeline services including the protection, rehabilitation, engineering and design of infrastructure projects for a wide range of industries.

AlphaDog Pipeline Leak Detectors LLC
Booth: ............................................... 3015
www.alphadogpipeline.com
Bloomington, Indiana, United States
T: (463) 720-3588
AlphaDog Pipeline Leak Detectors LLC - Providing pipeline leak detection services by utilizing specially trained dogs. Able to cover up to 16km per day, our dogs will find any leaks on your line regardless of size. Faster, more reliable, and more accurate than other methods, our pipeline dogs can help find the smallest of leaks before they become big problems.

Altek Industrial Supply Ltd.
Booth: ............................................... 2012
www.alteksupply.com
Edmonton, Alberta, Canada
T: (780) 465-9000
Altek Supply is proud to be the Western Canadian distributor for DHI protective coatings and DHI Valves. We distribute a wide range of high quality low emission valves and proven anti-corrosion coatings and tank linings. For 20 years, Altek Supply has consistently provided unmatched customer service to the Oil, Gas, Refining, Chemical, Water and Waste-water industries.

American Petroleum Institute
Booth: ............................................... 1316
www.api.org
Washington, District of Columbia, United States
T: (202) 682-8493
API is the only U.S. trade association serving the worldwide oil and natural gas industry. API's technical standards and publications help design and maintain pipelines and keep abreast of advances in the midstream industry. API also offers training and certification programs to ensure professionalism, competence, and product quality.

AP Sensing
Booth: ............................................... 222
www.ap sensing.com
Boeblingen, Germany
T: +49 (67031) 309669
We are your global fiber-optic based Pipeline Monitoring solution provider for Distributed Temperature Sensing and Distributed Acoustic Sensing. Leak detection, TPI, perimeter protection and flow assurance. An experienced engineering team and regional partners ensure ideal design, installation and commissioning, resulting in a highly reliable asset protection solution.

Apache Pipeline Products
Booth: ............................................... 809
www.apachepipe.com
Edmonton, Alberta, Canada
T: (780) 416-4850
Apache Pipeline Products is a major supplier of cleaning and maintenance equipment for oil, natural gas and industrial pipelines around the world. Our product line includes a wide range of pipeline pigging and custom urethane products. We are also the proud manufacturer of the patented Apache pigPRO pig passage indicator.

Applus+
Booth: ............................................... 125
www.applus.com
Sugar Land, Texas, United States
T: (832) 295-5023
At Applus+ we offer a complete portfolio of solutions that address a range of needs, from asset integrity management to new construction inspections, onshore or offshore. We place a strong emphasis on technological development and innovation, as well as having a clear understanding of regulatory requirements. Visit us to learn more about our advanced capabilities.

Armour Valve Ltd.
Booth: ............................................... 423
www.armourvalve.com
Calgary, Alberta, Canada
T: (403) 229-3171
Armour Valve Ltd. is a specialty valve sales and service organization with offices and inventory in Toronto and Calgary. We supply valves, accessories, and process equipment for a variety of industry applications, including: oil & gas, power, petrochemical, pulp and paper, mining and ore processing, and water and waste management.

Arnett & Burgess Pipeliners Ltd.
Booth: ............................................... 901
www.abpipeliners.com
Calgary, Alberta, Canada
T: (403) 265-0900
Arnett & Burgess builds and maintains pipeline infrastructure to the principles of quality, safety, and integrity. With offices in Athabasca, Blackfalds, Calgary, Fort St. John, Grande Prairie, Regina, Sedgewick as well as an office in North Dakota, we work with clients to reduce end costs through quality project execution.

Arrow-West Equipment Ltd
Booth: ............................................... 2004
www.arrowwest.com
Acheson, Alberta, Canada
T: (780) 962-4490
Based out of the Edmonton area, Arrow-West Equipment has been serving the pipeline and oilfield industries with our wide variety of products for over 35 years. We specialize in supplying Aliu crushing and screening equipment and FMS branded spoons, rakes and other attachments for excavators, wheel loaders and dozers.
Vanmok LD™ Studio  A Pipeline Leak Detection Software

Vanmok LD™ technology is based on the Extended Real-Time Transient Model (E-RTTM) using Artificial Intelligence, Pattern Recognition and Data Analytics. Vanmok LD™ continuously monitors the pipeline for leaks and column separation, which can detect leaks from 0.5% of nominal flow rate (such as leaks from pinholes) to ruptures within 200 meters** accuracy in a short span of time (less than few minutes).

Is your pipeline compliant with Regulations?

Does your existing procedures, processes and practices meet regulatory compliance?

Customers rely on Vanmok for our comprehensive suite of products, services and expertise to achieve regulatory compliance of their pipeline.

Vanmok offers the following:
- Gap Analysis
- Development of a Leak Detection Plan
- Development of procedures and processes for Front Line Leak response

Front Line Response, Leak Detection Analyst & Control Room Operator Training

Training that matters to keep the oil in the pipeline!

Vanmok offers the following:
- Custom pipeline trainer
- Develop training scenarios
- Train and qualify the controllers as per company Standards

Visit us at Booth #1319
#208, 5405 99 Street NW, Edmonton, AB Canada T6E 3N8
Email: info@vanmokld.com  Web: www.vanmokld.com

Leak Detection Technologies Inc.
Artic Therm International Ltd
Booth: .............................................. 600
www.artictherm.com
Morinville, Alberta, Canada
T: (780) 939-3141
Artic Therm provides temporary heating solutions and green air technology. Flameless heating is a cutting edge technology that reduces man-power, operating costs, and timelines during operations. Within our three divisions of Projects, Rentals and Climate Control, we provide a wide range of services from Pipeline Thermal Expansion to Glycol Heating.

Associated Technology Pipeline Ltd.
Booth: .............................................. 2205
www.atpuk.co.uk
Alton, Hampshire, United Kingdom
T: 011-44-1420-566001
Associated Technology Pipeline offers world leading pipeline integrity management software solutions that can be easily adopted by pipeline operators, asset managers and integrity engineers. Our flagship software, PIMSider, is an off-the-shelf software solution providing a comprehensive graphical multi-user software tool that processes pipeline, population and environmental information in an integrated way for all phases of the pipeline integrity management process.

Atelier A.H.R. Inc.
Booth: .............................................. 2000
www.ahr.ca
Brossard, Quebec, Canada
T: (450) 444-1282
Atelier A.H.R. has been present for over 30 years throughout Canada and we are located in Brossard (QC). AHR has signed a partnership with 3X ENGINEERING, one of the leading companies in Composite Repair Online Leak Sealing Pipe & Support Protection Structure Reinforcement. Based in Monaco, 3X Engineering is represented by over 35 distributors/partner all around the world. 3X Engineering specializes in the development and commercialization of pipe repair systems mainly for corrosion and leak repair.

Athena Industrial Services
Booth: .............................................. 720
www.echo-3d.com
Calgary, Alberta, Canada
T: (403) 247-7666
Athena Industrial Services is a Calgary based R&D firm which has created a new NDT platform that utilizes Shaped Electromagnetic Field Imaging. ECHO-3D is currently being employed within the Oil & Gas industry throughout North America. The commercial tool uses electromagnetics to scan, detect, and size detects in pipe surfaces, including corrosion, cracks, and SCC ≤0.05mm2.
CARBER
Booth: ..............................................2008
www.carber.com
Edmonton, Alberta, Canada
T: (780) 499-9011
CARBER provides full line of Inspection & Specialty Mechanical Service solutions. Our services increase safety, decrease downtime, reduce environmental impact and increase operational efficiency in our customers’ facilities. Some of these are localized Weld testing, 100% guaranteed line Isolation, economic & rapid line hydrotesting and Nozzle testing. Come for Live Demo!

CCI Rentals LP
Booth: ................................................531
www.ccisolutions.ca
Cochrane, Alberta, Canada
T: (281) 660-2394
Since 2004, CCI and CCI Rentals has provided award-winning, highly technical services to the pipeline, oil and gas, and municipal infrastructure sectors. We have established ourselves as a driving force in the continued advancement of trenchless pipeline systems and employ proven methods for tackling difficult crossings.

CDI- Control Devices, Inc.
Booth: ................................................913
www.pigging.com
Broken Arrow, Oklahoma, United States
T: (918) 258-6068
CDI designs/engineers/manufactures technologically advanced pipeline pig tracking and locating equipment. With UL/CSA, ATEX and IECEx certifications, CDI has pigging equipment appropriate for any area of the world whether it be onshore/offshore/subsea. Quality, durability, & safety are the focus. On-time delivery and exceptional service is the goal of every CDI associate.

CEPA Foundation
Booth: ................................................908
Calgary, Alberta, Canada
T: (403) 221-8777

C-FER Technologies (1999) Inc
Booth: ................................................303
www.cfertech.com
Edmonton, Alberta, Canada
T: (780) 450-8989
C-FER works with operators to push the limits of engineering to improve performance in existing assets and develop new resources. Our expertise: quantitative risk and reliability-based methods for pipeline design, operation and maintenance planning. C-FER provides full-scale pipeline testing under large loads, complex states of stress, and extreme temperatures.

Charger Industries
Booth: ................................................3000
www.chargerindustries.com
Calgary, Alberta, Canada
T: (403) 208-8173
Charger Industries is an ISO 9001 certified battery pack manufacturing company specializing in high reliability batteries for the oil and gas industry with over 20 years of experience in a wide variety of applications. We provide innovation and experience coupled with competitive pricing and an unmatched level of customer service.

Clarion Technical Publishers
Booth: ................................................1311
www.clarion.org
Houston, Texas, Australia
T: (713) 521-5929
Clarion is a provider of training courses, technical conferences, books, and technical journals for engineers and technical management within the oil and gas production and pipeline transportation industries, both on- and offshore.

Clock Spring
Booth: ................................................916
www.clockspring.com
Houston, Texas, United States
T: (281) 590-8491
Clock Spring simplifies asset stewardship and helps drive global economies by providing safe, sustainable solutions for maintenance and emergency repair of critical infrastructure. Clock Spring solutions include Snap Wrap, Contour and DiamondWrap composite products as well as EZ™ Valve for water lines. Visit us at booth #916.

Pigging Made Easy.

Clock Spring, formerly Citadel Technologies, simplifies asset stewardship and helps drive global economies by providing safe, sustainable solutions for maintenance and emergency repair of critical infrastructure. Clock Spring solutions include Snap Wrap, Contour and DiamondWrap composite products as well as EZ™ Valve for water lines. Visit us at booth #707.

Comtel Systems
Booth: .................................................. 524
www.bestpigtracker.com
Edmonton, Alberta, Canada
T: (780) 455-1945
Comtel Systems (Edmonton, Alberta) manufactures pipeline tracking equipment for the oil, Gas and Water industries. Comtel offers a complete line of auto tracking equipment with AGMs and satellite reporting boxes. Standard tracking equipment includes receivers, geophones and 22 types of transmitters for pigs and tools. 780-455-1945 or www.bestpigtracker.com

CORE Linepipe Inc.
Booth: .................................................. 2207
www.corelinepipe.com
Calgary, Alberta, Canada
T: (587) 333-6685
CORE Linepipe specializes in providing internal pipeline corrosion solutions in larger diameter pipelines for the oil and gas industry. Corrosion Resistant Steel internal pipeline corrosion solutions in CORE Linepipe specializes in providing T: (587) 333-6685 Calgary, Alberta, Canada www.corelinepipe.com

Corrosion Service
Booth: .................................................. 2011
www.corrosionservice.com
Markham, Ontario, Canada
T: (416) 630-2600
Corrosion Service was founded in 1950 by Thomas R.B. Watson as the first Canadian firm to specialize in cathodic protection. Our founding philosophy was based on the principles of providing great pipeline service and developing a deep understanding of customer needs, these same core principles still guide our company today.

Corpro Canada, Inc.
Booth: .................................................. 808
www.corpro.ca
Calgary, Alberta, Canada
T: (780) 447-4565
Corpro Canada Inc. is Canada’s largest corrosion engineering, cathodic protection and corrosion mitigation business.

Creaform
Booth: .................................................. 2109
www.creaform3d.com
Lévis, Quebec, Canada
T: (418) 833-4446
Creaform manufactures innovative and efficient NDT solutions. Our noncontact 3D measurement solution offers significantly shorter measurement time and streamlines the inspection process. The handheld 3D handheld scanners are optimized to meet the needs of engineers in pipeline integrity assessment, looking for the most effective and reliable way to acquire 3D measurements.

Cross Country Pipeline Supply Canada Inc.
Booth: .................................................. 301
www.ccpipeline.com
Spruce Grove, Alberta, Canada
T: (780) 720-7593
Cross Country Infrastructure Services is a leading supplier of materials, tools, equipment, and parts for the pipeline construction industry. With locations throughout the United States and Western Canada, Cross Country’s mission is to provide the customer with innovative and dependable equipment and supplies to get the job done safely and effectively.

CSA Piping Solutions
Booth: .................................................. 201
www.csapiping.com
Leduc, Alberta, Canada
T: (780) 980-9666
Expertise / specialization: Canada’s exclusive stocking distributor of tube turns closures, pipeline closures, turnkey closure solutions for launcher receivers, monolithic insulated joints, anchor forging/ flanges, CSA grade pipe, fittings & flanges.

Cylo Technologies Inc.
Booth: .................................................. 322
www.cylotech.com
Calgary, Alberta, Canada
T: (403) 542-7981
Cylo Technologies utilizes a 3D Spatial Data Infrastructure to deliver industry-leading mapping software that focuses on the needs of integrity engineers to align, match, integrate, manage, and analyze unlimited quantities ofILI data and other spatial asset data with exceptional accuracy and unprecedented user efficiencies.

Denso North America Inc.
Booth: .................................................. 912
www.densona.com
Edmonton, Alberta, Canada
T: (780) 910-1717
Denso North America Inc. is a subsidiary of Winn & Coales International, a leading manufacturer of anti-corrosion coatings including Purlot liquid coatings, petrolatum tapes, mastics, primers, bitumen tapes, butyl tapes, and Archo tank lining systems. Denso’s products are used by energy distribution companies, municipalities and production facilities worldwide.

Diakont Advanced Technologies
Booth: .................................................. 522
www.diakont.com
San Diego, California, United States
T: (858) 551-5551
Diakont is an industry-leading unpiggable pipeline and in-service storage tank floor inspection service provider that uses robotics to access difficult to reach areas within assets.

Direct Horizontal Drilling Inc.
Booth: .................................................. 216
www.directhorizontal.com
Acheson, Alberta, Canada
T: (403) 554-7378
Direct Horizontal Drilling is Canada’s premier horizontal directional drilling contractor with an extensive fleet of drilling rigs, an excellent team of knowledgeable and dependable people and the most successful history of river crossings in Canada. Direct Horizontal operates from coast to coast, headquartered out of Edmonton and field locations throughout Western Canada.

Direct-C
Booth: .............................................. 1314
www.direct-c.ca
Edmonton, Alberta, Canada
T: (780) 966-6987
Direct-C has created the world’s first commercial available leak monitoring system that directly detects only liquid hydrocarbons, eliminating false positives. Using a proprietary nanoparticle based smart coating, low cost solutions are available to remotely monitor above and below ground pipelines, storage tanks, or areas of high consequence.

DNV GL
Booth: .............................................. 112
www.dnvgl.com
Calgary, Alberta, Canada
T: (403) 250-9041
DNV GL is the technical advisor to the oil and gas industry. We bring a broader view to complex business and technology risks in global and local markets. Providing a neutral ground for industry cooperation, we create and share knowledge with our customers, setting standards for technology development and implementation.

DoC Mapping
Booth: .............................................. 1104
www.docmapping.com
New Orleans, Louisiana, United States
T: (504) 352-7551
DoC Mapping’s innovative approach to underwater infrastructure mapping is revolutionizing the way that depth of cover surveys are conducted and reported. The DoC Mapping survey process allows projects to be completed faster, safer and more accurately than ever before, without divers or physically touching the pipe.

DST Consulting Engineers
Booth: .............................................. 2001
www.dstgroup.com
Thunder Bay, Ontario, Canada
T: (877) 300-4800
DST Consulting Engineers Inc. is a multi-disciplinary firm providing comprehensive design and construction services to clients across Canada. DST has a reputation for being dependable, relied upon by our clients to consistently overcome the most vexing problems. We work hard to generate positive and measurable results for our clients every time.

Dynamic Risk Assessment Systems, Inc.
Booth: .............................................. 417
www.dynamicroisk.net
Calgary, Alberta, Canada
T: (403) 547-8638
Dynamic Risk experts provide complete pipeline risk assessment, data management and compliance reporting to help you manage risk. Together with ATCO, we provide turn-key integrity management services. The ability to leverage Dynamic Risk’s deep analytics and technology, combined with ATCO’s proven team of operators to execute the work, is truly an industry first.

Eddyfi Technologies
Booth: .............................................. 3013
www.eddyfitechnologies.com
Quebec, Quebec, Canada
T: (418) 780-1565
Eddyfi Technologies maximizes the potential of multiple advanced NDT inspection technologies. It focuses on offering high-performance NDT solutions for the inspection of critical components and assets through its complementary brands and product lines: Eddyfi, M2M, Silverwing, Teletest, and TSC.
A NEW LEVEL OF ACCURACY FOR GEOMETRY INSPECTION

EVO SERIES 1.0 ATLAS UG

Ultrasonic geometry measurement combined with crack or metal loss detection in a single run.

YOUR BENEFITS

- Direct measurement with depth resolution down to 0.1 mm (0.004 in)
- Enhanced identification and classification of dents - essential for pipeline integrity management
- Combined inspections deliver multiple datasets from a single run reducing operator costs

Edgen Murray Canada
Booth: ................................................ 2201
www.edgennmurray.com
Houston, Texas, United States
T: (713) 268-7200
Edgen Murray is a leading provider of specialty steel products and services to the energy sector and select industrial markets. We manage procurement, value added services and delivery of high performance pipe, fittings, flanges, valves, high-yield heavy plate, and related components through a global distribution platform across the Americas, Europe, Middle East and Asia Pacific regions.

Elemental Controls Limited
Booth: ................................................ 3008
www.elementalcontrols.com
Mississauga, Ontario, Canada
T: (866) 544-9974
Elemental Controls, a Canadian company with 24 years of experience in handheld portable analyzers, provides elemental analysis and alloy grade verification of matrices such as Carbon Steels, Low Alloy Steels, Stainless Steels etc. We strive to provide our clients with a full-service approach with products and support, unmatched by others.

Enduro Pipeline Services
Booth: ................................................ 502
www.enduropils.com
Tulsa, Oklahoma, United States
T: (918) 200-5607
Enduro provides “Safety First” intrinsically linked pipeline In-line inspection services and pigging products – designed and manufactured to provide “Cost Effective” pipeline pigging solutions; focused on exceeding Pipeline Company operational and integrity excellence requirements. Come by Booth #502 to view Enduro PigProg II Presenter Software.

EnerClear Services Inc.
Booth: .................................................. 816
www.enerclear.ca
Sylvan Lake, Alberta, Canada
T: (403) 836-7001
Protection, Prevention, Rehabilitation. EnerClear Services innovative in-situ pipeline epoxy coating process provides a cost-effective solution for the prevention of corrosion in new pipelines, or the rehabilitation of worn, corroded or scaled existing pipelines. EnerClear’s process is capable of cleaning and coating lines up to 20 km in length and/or 42” ID.

Engineered Power
Booth: .................................................. 1206
www.engineeredpower.com
Calgary, Alberta, Canada
T: (403) 235-2584
Engineered Power is a Calgary based manufacturer of non-chargeable lithium cells for the oil/gas and specialized industries. Cell sizes range from 1/2 AAA to DDD in a variety of lithium chemistries, including Lithium 3.9V Sulfuryl Chloride, 3.6V Thionyl Chloride and 3.3V CFx-CFx/ MnO2.

Ensols Systems Inc.
Booth: .................................................. 907
www.ensolsystems.com
Surrey, British Columbia, Canada
T: (604) 576-8333
Ensols Systems is a technology integrator and manufacturer that specializes in industrial power solutions for remote off-grid locations. Utilizing clean power technologies, we are committed to deploying high-quality, innovative solutions for our clients most challenging applications.

ENTEGRA
Booth: .................................................. 1313
www.entegrasolutions.com
Indianapolis, Indiana, United States
T: (317) 441-1924
ENTEIRA is an ultra-high resolution MFL/ Caliper/MM, tethered and free swimming, in-line inspection service provider. Featuring nearly 4X the resolution of the current state-of-the-art, ENTEGRA’s tools are the shortest, lightest and the most robust available. Highest Resolution. Highest Service. Enterprise Integrity.

Enviro Inc.
Booth: .................................................. 111
www.enviroinc.com
San Francisco, California, United States
T: (236) 986-9355
Enviro is the leader in 3D geospatial analytics. We rapidly transform nation-scale 3D geospatial datasets into insights and action to protect people and infrastructure. We combine significant expertise in geospatial big data, deep learning and 3D computer vision to prevent threats from becoming incidents that impact people, businesses, and the environment.

E-Z Line Pipe Support Co. LLC.
Booth: .................................................. 822
www.ezline.com
Manvel, Texas, United States
T: (713) 675-6693
As an industry leader, E-Z Line® has served the petrochemical, pipeline, and construction industries in Houston, Texas and surrounding areas with our products for over 60 years. We manufacture the original E-Z Line® Pipe Support, E-Z Line® Pipe Clamp, Shim Block & Base Plate Assemblies, customized pipe clamps and supports, along with a wide variety of structural steel products including platforms, stair assemblies, ladders, handrails, and structural steel pipe racks.

FLEXIBLE TECHNOLOGY CO., LTD
Booth: .................................................. 1210
www.conduit-flexible.com
Jiaxing, Zhejiang, China
T: 0086-573-84838888
Kai-flex is established in 2007, it has been developed into a leading manufacturer in the flexible conduit market. UL&CEL metal flexible conduit, UL&CEL non-metallic flexible conduit, UL514B fitting. We have met ISO9001:2008.

Fotech Solutions Ltd.
Booth: .................................................. 917
www.fotechsolutions.com
Church Crookham, Hampshire,
United Kingdom
T: 44 (0) 1252 560 570
Fotech Solutions’ LivePIPE, is a unique monitoring technology that applies cutting edge optical physics to detect, identify and locate events by their vibration characteristics. For pipelines the system is deployed using buried or directly attached fibre optic cables to protect and warn against accidental/malicious activity and provide environmental protection.

Frontics America INC
Booth: .................................................. 425
www.fronticsamerica.com
Mount Prospect, Illinois, United States
T: (224) 220-0745
Frontics America Inc., expertise in material property assessment equipment. Unlike existing destructive measuring equipment and evaluating method, the Instrumented Indentation Technique (IT) which is non-destructive, economical and efficient measuring method to evaluate mechanical properties (yield & tensile strength, residual stress, hardness) of materials.

Gentherm Global Power Technologies
Booth: .................................................. 400
www.genthermgloball.com
Calgary, Alberta, Canada
T: (403) 236-5556
Gentherm Global Power Technologies is the world’s leading manufacturer of critical pipeline sealing and electrical isolation products. With a focus on safety, performance and reliability, we employ advanced engineering and manufacturing processes to meet the challenging demands of the oil and gas industry.

G2 Integrated Solutions
Booth: .................................................. 325
www.g2-is.com
Houston, Texas, United States
T: (713) 260-4018
G2 Integrated Solutions is dedicated to meeting the asset integrity, engineering, GIS, regulatory, field services & technology challenges faced by Upstream, Midstream & Downstream/Utility energy operators. Our comprehensive suite of services & technologies delivers innovative solutions across the energy value chain, and throughout the asset life-cycle.

Galaxy Broadband
Communications Inc
Booth: .................................................. 200
www.galaxybroadband.ca
Mississauga, Ontario, Canada
T: (416) 722-5282
Design, Deploy, Manage and Support For 25 years Galaxy has delivered leading-edge technologies that help build your project’s productivity. Galaxy’s networks of multiple VSAT, MICROWAVE and LTE delivers: QoS, Managed Services, VoIP, hosting solutions and complete camps communications that make your remote enterprise work more efficiently. Don’t get left behind.

Garlock Pipeline Technologies (GPT)
Booth: .................................................. 523
www.gpindustries.com
Wheat Ridge, Colorado, United States
T: (250) 613-5081
GPT, a division of EnPro Industries, is the world’s leading manufacturer of critical pipeline sealing and electrical isolation products. With a focus on safety, performance and reliability, we employ advanced engineering and manufacturing processes to meet the challenging demands of the oil and gas industry.

Booth: ................................................ 1315
www.globalinformationsystems.com
Lexington, Kentucky, United States
T: (713) 481-4662
Global Information Systems provides pipeline integrity software & services for its partner-clients. Our domains of expertise include Applications & Database Development; GIS & CAD; Materials Verification & Pipeline Data Modeling and Real-time Data Integration & Analysis, our programs focus on people, process & technology to drive innovation & performance.

**Grey Owl Leak Detection**
Booth: ................................................ 3006
www.GreyOwlLD.com
Calgary, Alberta, Canada
T: (403) 266-5810
Grey Owl Leak Detection (GOLD) provides comprehensive pipeline leak detection solutions to ensure regulatory compliance and effective risk management in challenging upstream oil & gas applications. GOLD services include: • Leak Detection Programs (LDP) • Leak Detection Systems (LDS) • Operational Support & Training • Risk Assessment and Management

**Golder**
Booth: .............................................. 926
www.golder.com
Calgary, Alberta, Canada
T: (403) 299-5600
Golder provides consulting, design, and construction services in our specialist areas of earth, environment, and energy. Employee owned since 1960, our 6,500+ people operate from 165 offices worldwide. Golder provides engineering and environmental services that span the entire pipeline lifecycle. We are experts in environmental and socio-economic services, ground and water

**GRM Custom Products**
Booth: .............................................. 715
www.grmcp.com
Conroe, Texas, United States
T: (936) 441-5910
For over 50 years, GRM Custom Products has worked with engineers, steel fabricators, and contractors to provide structural products and solutions on a wide variety of construction projects. Our history of providing superior products and service to the construction industry is the foundation on which we stand as we look to the future.

**Group 10 Engineering Ltd**
Booth: ................................................ 1209
www.g10e.ca
Calgary, Alberta, Canada
T: (403) 457-3155
Group 10 Engineering delivers leading edge asset integrity and risk management solutions for pipelines, pressure equipment, tanks, and associated equipment. We offer practical solutions from Integrity program development through to risk assessments, mitigation and monitoring programs, inspection and defect assessments. Contact us at 403-457-3155 or info@g10e.ca

**Grey Owl Leak Detection**
Booth: ................................................ 3006
www.GreyOwlLD.com
Calgary, Alberta, Canada
T: (403) 266-5810
Grey Owl Leak Detection (GOLD) provides comprehensive pipeline leak detection solutions to ensure regulatory compliance and effective risk management in challenging upstream oil & gas applications. GOLD services include: • Leak Detection Programs (LDP) • Leak Detection Systems (LDS) • Operational Support & Training • Risk Assessment and Management

**gX Insight by GDM and Explore**
Booth: .............................................. 706
www.gx-insight.com
Calgary, Alberta, Canada
T: (403) 547-9100
gX Insight by GDM and Explore is the industry’s first and only end-to-end integrity solution. It integrates GDM Pipelines’ data management expertise and Explore’s pipeline integrity experience to deliver planning, execution and data collection for in-field integrity programs, combined with comprehensive information management and data analytics software.
Halfwave AS
Booth: ................................................ 408
www.halfwave.com
OEVRE ERVIK, Norway
T: (474) 766-6800
Halfwave provides revolutionary acoustic resonance technology for maintaining pipeline integrity. This ground-breaking technology enables ultrasonic ILI of gas lines without liquid coupling medium. External inspection of subsea lines is now possible without coating removal. Halfwave has recently opened a fully self-sufficient base in Houston. Come see us at booth 408.

Hawk Measurement Systems Pty. Ltd.
Booth: ................................................ 527
www.hawk.com.au
Lawrence, Massachusetts, United States
T: (978) 304-3000
Hawk Measurement Systems (Hawk) Fibre Optic Sensing (FOS) Group’s primary business role is the development, manufacturing, marketing, commissioning and implementation of the Praetorian Fibre Optic Sensing System. We allow our customers to achieve measurement outcomes that are unpractical, uneconomical or otherwise impossible.

Herrenknecht Tunnelling Systems USA Inc.
Booth: ................................................ 319
www.herrenknecht.com
Sumner, Washington, United States
T: (253) 447-2322
Herrenknecht is a technology and market leader in the area of mechanized tunneling systems. As the only company worldwide, Herrenknecht delivers cutting-edge tunnel boring machines for all ground conditions and in all diameters – ranging from 0.10 to 19 meters.

HIMA Americas Inc.
Booth: ................................................ 731
www.hima.com/en
Houston, Texas, United States
T: (832) 266-9214
When you improve your ability to detect and quickly react to pipeline leaks, you’re better able to operate safely, responsibly and profitably. With the HIMA solution you benefit from superior leak detection and have the foundation of advanced pipeline management and control.

ICEYE
Booth: ................................................ 930
www.iceye.com
Espoo, Uusimaa, Finland
T: 011 358 50 387 8670
ICEYE is a radar satellite company building world’s fastest radar satellite monitoring capability with a 18 satellite constellation. ICEYE has successfully launched one satellite and will be launching 9 more by end of 2019. The full constellation will be ready in 2020. ICEYE is doing pipeline right of way monitoring and can detect e.g. vehicles or ground change in the ROW.

ILF Consultants Inc.
Booth: ................................................ 726
www.ilf.com
Calgary, Alberta, Canada
T: (587) 288-2600
ILF Consulting Engineers is a 100% independent, fully private owned global engineering and consulting company with more than 50 years of experience in the business of oil & gas, energy & climate protection, water & environment and transport & structures. ILF provides comprehensive, full-scope services for major industrial and infrastructure projects.

Industrial Degauss
Booth: ................................................ 1309
www.industrialdegauss.com
Bridgewater, New Jersey, United States
T: (747) 334-2877
Industrial Degauss provides demagnetizing services and equipment worldwide. Magnetized pipes cost time and money. The IDMAG system removes pipe magnetism, eliminating arc blow and weld defects. This system is portable, powerful and very easy to use. Demagnetizing Service, Sales and Rentals available.

Infrastructure Mapping & Autonomy
Booth: ................................................ 426
www.infrastructuremapping.com
Calgary, Alberta, Canada
T: (403) 890-4979
IMA helps operators increase the NPV of their assets by decreasing costs and time to approval while improving routing and construction. Using advanced technologies IMA rapidly process LiDAR data to produce detailed 3D maps for pipelines. As a Lux Modus partner IMA is on the forefront of the pipeline digital twin.

Intergal Pipeline Technologies
Booth: ................................................ 119
www.intergalpipe.com
Edmonton, Alberta, Canada
T: (780) 886-1067
Intergal Pipeline Technologies is a service company focused on effective, efficient and economical service to pipeline companies. Integral manufactures and operates a fleet of Multi-Set IsoTools for pipeline isolation and we provide expertise and personnel for pipeline pigging and right of way services in Canada and the United States.

Ingu Solutions
Booth: ................................................ 900
www.inlinespигging.com
Calgary, Alberta, Canada
T: (403) 930-5150
In-Line Pigging Solutions specializes in pipeline integrity and pipeline maintenance through performing elite services and providing industry-leading products. Our services include Pig Tracking, ILI Coordination, AGM survey, Dig Survey, GIS, all in combination with project management. ILPS is also a proud distributor of ClockSpring and Polyguard RD-6 products.

Innovator Industrial Services
Booth: ................................................ 806
www.innovatorind.com
Edmonton, Alberta, Canada
T: (855) 436-4666
Innovator provides specialty services on maintenance, turnarounds, inspections, fabrication and construction phases, achieving dramatic results in regards to safety, productivity and cost effectiveness. With an approach based around the deployment of advanced technologies, cross trained employees providing safe and efficient work alongside industry leading customer support services, all while retaining a TRIR of 0.0 over the last 6 years. Find out more or partner with Innovator today at www.innovatorind.com.

Integrated Sensing & Surveillance Inc
Booth: ................................................ 330
www.isinc.ca
Red Deer, Alberta, Canada
T: (403) 479-5546
Providing Aerial Pipeline Inspections, ISS provides specialized advanced sensing equipment, technical expertise and Graphic Information Services (GIS) for delivering reports and fault finding throughout Canada and US. Other services include Suspended Well Inspections, Vegetation Control, Soil Application, Well & Pipeline Abandonment including Reclamation and Well Servicing.

International Flow Control Ltd.
Booth: ................................................ 114
www.ifc-ltd.com
Edmonton, Alberta, Canada
T: (780) 466-4136
International Flow Control Ltd. (IFC) is the Canadian authorized distributor of GWC ITALI valves, stocking representative of L&T valves, and source for additional premier lines of cast and forged floating and trunition ball, gate, globe, and check valves. IFC is ABSA certified offering DRT, LRK, seat changes, and hydro testing.

Intero Integrity Services
Booth: ................................................ 209
www.Intero-Integrity.com
Houston, Texas, United States
T: (281) 484-2000
Intero Integrity Services is the world’s only inspection and industrial services specialist to combine innovative technologies, critical insights, state-of-the-art equipment, and advanced data management systems with a streamlined project approach. Formerly A.Hak Industrial Services, we are an agile company with a robust investment plan and an enhanced management team deelip.

IPAC Services Corp.
Booth: ................................................ 1326
www.ipacservices.com
Charmont, Alberta, Canada
T: (403) 888-2006
IPAC Services Corporation is a leading provider of construction and maintenance services to the oil and gas sector of Western Canada. Our pipeline group specializes in pipeline integrity programs, inspections, dig-ups and repairs, launcher / receiver programs as well as internal / external coatings and mobile abrasive blasting and mobile coating services.
Delivering Canada’s energy, safely and responsibly
MAXX North America Services Ltd.
Booth: 418
www.maxxnorthamerica.com
Edmonton, Alberta, Canada
T: (780) 482-4144
Maxx was founded in 2009 to offer pipeline cleaning and maintenance solutions to the oil and gas transmission industries. We began our journey with humble beginnings, running scraper pigs out of an office inside one third of an ATCO trailer in Devon, Alberta.

McDermott
Booth: 824
www.mcdermott.com
Houston, Texas, United States
T: (832) 513-1000
McDermott is a world leader in induction and cold bending. Cojafex, our wholly-owned subsidiary and the world’s leading manufacturer of induction-bending equipment for both pipe and structural shapes, supplies induction bending technology and equipment to our fabrication shops.

McElhanney Geomatics Engineering Ltd
Booth: 1228
www.mcelhanney.com
Calgary, Alberta, Canada
T: (587) 779-2288
McElhanney is an innovator in the field of geomatics engineering and surveying. We use cutting edge technologies from Laser scanning to LiDAR to help planning, construction, weld mapping and management of pipelines/facilities across Canada. We provide precision data and analytics to clients when they need it.

MDA Corp.
Booth: 2210
www.mda.ca
Richmond, British Columbia, Canada
T: (604) 231-2099
MDA is a global leader in remote sensing and Earth observation. We provide solutions that help governments and businesses manage their resources, improve their operations and make informed decisions.

Mears Group Inc.
Booth: 101
www.mearscorrosion.com
Rosebush, Michigan, United States
T: (800) 632-7727
Mears Group, Inc. - With over 400 employees and a nearly 50-year history of worldwide operating success, Mears is one of the most respected and qualified providers of corrosion engineering, construction, and integrity services to the Oil, Gas and Energy industries. We have over 125 NACE certified engineers and technicians to address any needs in corrosion control and integrity solutions.

Measurement Sciences Inc.
Booth: 1205
www.msciences.ca
Calgary, Alberta, Canada
T: (587) 216-1738
Measurement Sciences is a geomatics survey engineering company focused on applying the latest in geomatics technology and maintaining the highest quality of survey data acquisition and processing. This has allowed us to maintain and grow our long-term client list and build strong ties in the wider Engineering community in Western Canada.

Medsource Inc.
Booth: 2107
www.medsource911.ca
Cochrane, Alberta, Canada
T: (888) 585-5305
Medsource provides all levels of medical services to industrial sites. We also assist with safety data management, head count and muster services. Medsource is proud to have provided the largest contingent of private medical and rescue services during the Fort McMurray fire.

Meridian Surveys Ltd.
Booth: 401
www.meridiansurveys.ca
Saskatoon, Saskatchewan, Canada
T: (306) 934-1818
Meridian Surveys has been a leader in the Pipeline Survey sector for over 25 years. In that time, we have provided the survey and mapping to undertake thousands of kilometers of pipeline projects in Canada, for Canada’s major oil and gas transmission companies.

Metegrity Inc.
Booth: 1305
www.metegrity.com
Edmonton, Alberta, Canada
T: (780) 485-8512
Metegrity provides quality and asset integrity management software for pipeline operators. We digitalize the pipeline lifecycle from inception to operations. We currently protect over $550 billion in assets across 850 facilities worldwide and present on major pipeline construction projects.

Michels Canada
Booth: 212
www.michelscanada.com
Nisku, Alberta, Canada
T: (920) 583-1448
Michels is one of the largest and most diversified utility contractors in North America with more than 35 offices and yards coast-to-coast, including Nisku, Alberta where Michels Canada is based. We are experienced with direct pipe, HDD, pipeline, maintenance and emergency repairs, stations and tunneling.
MIDSTREAM INTEGRITY SERVICES
Booth: .............................................. 900
www.midstream.com
Calgary, Alberta, Canada
T: (587) 349-5897
Midstream Integrity Services is a pipeline integrity company based out of Calgary, Alberta and is a division of In-Line Pigg ing Solutions. MIS’s range of services span Non-Destructive Testing, Pipeline Survey, Dig Site Inspection, and Pipeline Repair solutions.

MIDWEST SURVEYS INC.
Booth: .............................................. 625
www.middlesurveys.com
Calgary, Alberta, Canada
T: (403) 244-7471
Midwest Surveys is a surveying firm providing specialized surveying, bathymetric and locating services to the pipeline industry. We boast 9 offices throughout western Canada with very experienced teams supporting all aspects from FEED through to Integrity projects. Stop by booth 625 and speak to our representatives about our innovative solutions.

MILLIKEN INFRASTRUCTURE / PIPE WRAP
Booth: ................................................ 700
www.pipewrap.net
Houston, Texas, United States
T: (864) 503-1349
Milliken Infrastructure extends the life of the world’s infrastructure by strengthening, repairing and protecting transmission pipelines and process piping. Our family of Pipe Wrap® composite repair solutions is engineered in accordance with ASME, ISO, and ASTM standards to withstand harsh elements, high pressure, and the effects of exposure over time.

MISTRAS GROUP INC.
Booth: ................................................ 1214
www.mistrasgroup.com
Princeton Junction, New Jersey, United States
T: (609) 716-4000
MISTRAS Group (NYSE: MG) specializes in structural integrity inspections of buried and aboveground pipelines. From new construction to pipeline integrity projects, MISTRAS offers an array of non-destructive testing services, proprietary inspection and condition-monitoring products, and advanced cathodic protection inspection technology. Booth #1214 - pipelines@mistrasgroup.com

MOTTECH TECHNOLOGIES INC
Booth: ................................................ 2112
www.motttech.com
Calgary, Alberta, Canada
T: (403) 291-2770
Mott MacDonald is a global engineering, management and development consulting firm with extensive capabilities in oil & gas pipeline and facilities. We provide the complete range of services in project management, planning, feasibility studies, environmental assessments, design, procurement, construction management and inspection, and asset management information.

NDT GLOBAL
Booth: ................................................ 712
www.ndt-global.com
Leduc, Alberta, Canada
T: (780) 612-3100
NDT Global is a leading supplier of ultrasonic pipeline inspection and data analysis. Its state-of-the-art inspection fleet provides the entire inline inspection service spectrum for onshore and offshore pipelines worldwide. First run success, best data quality and rapid report delivery are our key benchmarks.

NEW CENTURY SOFTWARE
Booth: .............................................. 307
www.newcenturysoftware.com
Fort Collins, Colorado, United States
T: (970) 267-2000
Integrity Plus is a pipeline integrity management and regulatory compliance firm dedicated to serving hazardous liquids and natural gas pipeline operators. Providing holistic strategies to support pipeline operators’ integrity programs, safety management systems, and regulatory compliance objectives.

NILEX INC
Booth: ................................................ 207
www.nilex.ca
Edmonton, Alberta, Canada
T: (780) 463-9535
Nilex, a leader in the geosynthetics industry, provides innovative solutions to support the unique challenges of civil, resource and environmental construction projects. Our engineered, technically advanced materials & construction techniques are used in road building, Mechanically Stabilized Earth solutions, erosion and sediment control, water management and containment.

NORTHERN MAT AND BRIDGE LTD
Booth: .............................................. 906
www.northernmat.ca/language/fr-CA/Home Clairmont, Alberta, Canada
T: (403) 988-9385
Northern Mat & Bridge (NMB) specializes in providing safe, cost effective temporary access products and solutions for energy industries across North America. Our products and services deliver safe access to otherwise impassable terrain for reasons such as poor ground conditions, weather, sensitive farm/grass lands and traditional land use areas.

NOUTECH INC
Booth: .............................................. 120
www.novitechinc.com
Vaughan, Ontario, Canada
T: (289) 716-4717
Novitech is an industry leading inline inspection and mapping service and technology development company. We are focused on developing and providing Ultra High Resolution inline inspection tools with an emphasis on exceptional service. Novitech was founded with the experience driven expertise demanded by the oil and gas pipeline industry.

OIL STATES INDUSTRIES INC
Booth: .............................................. 903
www.oilstates.com
Houston, Texas, United States
T: (713) 445-2392
Specialized connectors for horizontal pipeline applications where little or no clearance exists. Quick connection system permits pipe removal or rotation in-place without removing the pipe section. The no-bolt system can be changed out in a few minutes. Oil Sands, mining and directional drilling applications available. An excellent solution for quick pigging access.

OILPRO OILFIELD PRODUCTION EQUIPMENT LTD.
Booth: .............................................. 1213
www.oilpro.ca
Calgary, Alberta, Canada
T: (403) 215-3373
OilPro presents Innopipe & PowerGen: Innovipe Prevents pipeline corrosion and liquids problems. We offer efficient, inexpensive, smaller, simple to operate liquids removal for gas pipelines. PowerGen: Designed for rugged and remote operation, the PowerGen remote power generator provides reliable electrical power supply to the most demanding and mission-critical loads.

Olympus
Booth: .............................................. 904
www.olympus-ims.com
Waltham, Massachusetts, United States
T: (781) 419-3900
Olympus provides portable and automated solutions for the oil and gas industry. Technologies include remote visual inspection, microscopy, ultrasound, phased array, eddy current, X-ray fluorescence, and optical metrology. Products include flaw detectors, thickness gages, videoscopes, borescopes, nondestructive testing systems XRF & XRD analyzers, and industrial scanners.

OMNISENS SA
Booth: .............................................. 501
www.omnisens.com
Morges, Vaud, Switzerland
T: 41 21 510 2121
Find out how to prevent pipeline damage and detect leaks using fiber optic sensing. This technique detects and locates small leaks, ground movement and gives early warning of third party intrusion continuously in real time. Two papers will be presented at 2014 IPC. Find out more on stand 501.
A foremost event for the instrumentation and automation industry, ISA Calgary Show draws exhibitors and visitors from around the world to share best practices, network and discover the latest technology and solutions to help streamline and enhance operations.

### Pipetech Corporation Ltd.
**Booth:** 602  
**www.pipetechcorp.com**  
Calgary, Alberta, Canada  
**T:** (403) 287-3558  

Pipetech Corporation designs and delivers products that mitigate corrosion and ensure the integrity and efficiency of pipelines. From industry-leading pigging products and equipment to sealing solutions that ensure the safe flow of fluids under the most rigorous sealing requirements, Pipetech offers cost-effective solutions to ensure the integrity of your pipeline.

### Pipetel Technologies Inc.
**Booth:** 117  
**www.pipelone.com**  
Williamsville, New York, United States  
**T:** (416) 510-8588  

Pipetel Technologies Explorer robots provide inline inspection services that provide data allowing operators of natural gas pipelines to implement a proactive pipeline integrity management and maintenance program. Pipetel provides a range of services in unpiggable pipelines from 6 to 36 inches including inspection for metal loss, dents, mechanical damage and video.

### Pro Inspection Ltd.
**Booth:** 1100  
**www.proinspectionltd.com**  
Edmonton, Alberta, Canada  
**T:** (780) 469-0853  

Pro is committed to pipe and coating quality surveillance services that exceed the expectations of our customers. Providing effective quality management, comprehensive reporting and the industry standard that your business needs. We strive to build lasting relationships with our customers while continually improving our quality and safety systems.

### Proline Pipe Equipment Inc.
**Booth:** 719  
**www.proline-global.com**  
Edmonton, Alberta, Canada  
**T:** (780) 465-6161  

Proline is a supplier to the plant & pipeline industries. We manufacture Hydraulic Pipe Bending Machines, Mandrels, Internal Line Up Clamps & HD Horizontal Rollers. We distribute many products including Canusa Coating Protection, Tuff-N-Nuff, Spy Detectors, PSI Casing Insulators, Vacuworx, Vivax/Metrotech Locators, TeSi Generators, Provincial Rentals Ltd.

### Provincial Rentals Ltd.
**Booth:** 422  
**www.provincialrentals.com**  
Grande Prairie, Alberta, Canada  
**T:** (780) 962-3388  

Heavy equipment rentals including Pipelayers, Excavators, Dozers, Graders, Loaders, Scrapers, Articulated trucks, Compactors, and more. We are proud to make it our goal to provide you with heavy equipment to help get the job done.

### PureChem Services
**Booth:** 802  
**www.purechemservices.com**  
Calgary, Alberta, Canada  
**T:** (587) 233-4298

PureChem Services is a key player in the production chemical business. Our proven track record of developing customized chemical solutions and delivering outstanding results makes us the best candidate to lower your total cost of operations while optimizing production. Call today to get our technical experts working for you.

### PureHM - The Pipeline Professionals
**Booth:** 702  
**www.purehm.net**  
Edmonton, Alberta, Canada  
**T:** (416) 346-4979

PureHM offers proven solutions for regulated inspection of oil and gas pipelines. SmartBall, Armadillo Tracks and Spectrum XLI are among the technologies we utilize to help give companies confidence in making informed integrity decisions to deliver energy as safely as possible. PureHM cares about its clients and together determine solutions for any challenge.
QUALITY POLLY PIG
Booth: ................................................ 317
Edmonton, Alberta, Canada
T: (780) 997-2726
Quanta Inline Devices specializes in Inline Inspections using MFL, Deformation and IMU tools ranging from 6 inch to 32 inch. QR-Inline can provide additional services including survey, tracking, pipeline cleaning, separation equipment, temporary launchers/receivers, tethered inspections, pipeline propulsion with nitrogen, waste disposal, enhanced analysis such as dent strain, bending strain and corrosion growth analysis.

Ram-100 International, LLC
Booth: ................................................ 1105
Houston, Texas, United States
T: (832) 500-1073
Ram-100 specializes in manufacturing anti-corrosive coating, and composite and steel sleeves for Oil and Gas pipelines. Stop by booth #725 to learn about our innovative solutions focused on challenging and difficult to inspect pipelines, as well as project management and in-line inspection support.

Rasco FR Canada
Booth: ................................................ 918
Winnipeg, Manitoba, Canada
T:(844) 987-2726 (424) 231-7172
Rasco’s vision is to improve people’s quality of life through the clothing they wear.

Red-D-Arc Limited
Booth: ................................................ 3003
Grimsby, Ontario, Canada
T: (904) 627-9609
Red-D-Arc offers a full range of rental welding and positioning equipment for a variety of processes and applications. Our products are built to provide performance and reliability in the harshest environments available through over 50 Rental Centers in the United States, Canada, Mexico, Europe and the Middle East.

Reed Manufacturing
Booth: ................................................ 923
Erie, Pennsylvania, United States
T: (814) 452-3691
Reed Manufacturing specializes in professional-grade pipe tools and vises. The pipeline market utilizes Reed’s Hinged Cutters, Rotary Cutters and PLAS cutters. Specialty wrenches are available, along with numerous other pipe tools.

Reef Industries, Inc.
Booth: ................................................ 807
Houston, Texas, United States
T: (800) 231-6074
Since 1957, Reef Industries has been the industry leader in reinforced high strength plastics and laminates designed for a wide range of prospective applications. These polyethylene and vinyl laminates provide exceptional durability in a flexible lightweight material.

Remote Helicopters Ltd.
Booth: ................................................ 429
Slave Lake, Alberta, Canada
T: (780) 849-2222
Remote Helicopters provides air charter services for all of your needs, whether it is oil and gas pipeline inspections, rig moves, lifting equipment, passenger transportation, or a leisurely flight, Remote Helicopters can do it all. Our experienced friendly staff will make your flight safe and comfortable.

Riggertalk Oilfield Services Ltd.
Booth: ................................................ 1322
Lloydminster, Alberta, Canada
T: (780) 808-8162
Riggertalk is a Map based Oilfield Network used to find Companies, Services, Active Drilling Rigs, Road Bins, Jobs/Resumes, Events, Equipment Sales and Locations. Riggertalk is proven to get your company and services found! Riggertalk App and website is the only tool needed in the Oilfield. Get Pinned on the MAPI!

Rockford Corporation
Booth: ................................................ 823
Dallas, Texas, United States
T: (832) 780-6916
Rockford is a pipeline contractor that services the United States and Canada specializing in arctic terrain and large diameter pipeline.

RockGuard, pipeline protection mesh has quickly become the new go-to for pipeline protection with both contractors and energy companies. RockGuard HD is lightweight, flexible, 11mm, and available quickly and efficiently in custom widths and lengths.

Royen
Booth: ................................................ 512
Calgary, Alberta, Canada
T: (403) 269-1190
Royen supports the oil and gas industry with a focus on integrity and maximizing asset lifespan. Our wide range of products and services contribute to safe and reliable infrastructure operation.

Royal Camp Services Ltd.
Booth: ................................................ 3009
Edmonton, Alberta, Canada
T: (780) 463-8000
Royal Camp Services Ltd., a privately-owned company held by a large investment corporation with available capital, is the market leader in the modular workforce accommodation and full “turn-key” camp catering and operations industry, with innovative industry solutions for remote resource-based sectors. Royal Camp Services’ legacy is grounded in its reputation for exception.

Rockford Corporation
Booth: ................................................ 823
Dallas, Texas, United States
T: (832) 780-6916
Rockford is a pipeline contractor that services the United States and Canada specializing in arctic terrain and large diameter pipeline.

Red-D-Arc Limited
Booth: ................................................ 3003
Grimsby, Ontario, Canada
T: (904) 627-9609
Red-D-Arc offers a full range of rental welding and positioning equipment for a variety of processes and applications. Our products are built to provide performance and reliability in the harshest environments available through over 50 Rental Centers in the United States, Canada, Mexico, Europe and the Middle East.

Royal Camp Services Ltd.
Booth: ................................................ 3009
Edmonton, Alberta, Canada
T: (780) 463-8000
Royal Camp Services Ltd., a privately-owned company held by a large investment corporation with available capital, is the market leader in the modular workforce accommodation and full “turn-key” camp catering and operations industry, with innovative industry solutions for remote resource-based sectors. Royal Camp Services’ legacy is grounded in its reputation for exception.
Global Petroleum Show (GPS) is the most important energy expo & conference in North America attracting more than 50,000 international and domestic oil and gas executives from over 21,000 companies. Officials from government, national and international energy companies across the entire supply chain convene at GPS to share innovative technologies, conduct business and engage in complex and controversial discussions aimed to shape the future of the energy industry.

The Global Petroleum Show Conference is a comprehensive three-day program where 100+ industry leading experts share their knowledge and understanding across the event’s expansive line-up of strategic and technical conference sessions.

GPS is the premier international meeting place for the industry to introduce new technologies, share ideas, meet new prospects, and do business together. The show also provides a platform for all industry players to develop strategies for oil and gas, renewables, and introduce new energy sources not yet discovered.
